X

GEORGE WILLIAMS
Code to Design

Professionally, he has held key positions at several start-up companies, including roles as Lead Software Developer, Software Engineering Manager, and Director of Software Production. He has applied his multifaceted interests and experience to a broad range of projects, including smart-phone applications, augmented reality, motion capture, and novel computer programming languages.◆

GEORGE IS A 20-YEAR VETERAN in the computer and software industry. Earning his Master's Degree in Computer Science from the University of Virginia, George has published numerous papers on topics pertaining to human-computer interaction, computer vision, virtual reality and machine learning; he also holds several patents in mobile and security software.

LEO MARTINEZ

Code to Design

LEO IS WELL VERSED IN THE THEORIES OF DESIGN, seamlessly applying his design skills in the arena of innovative computer and software technology. His strong design background is rooted in years of hands-on experience in graphic design, fashion design, fashion merchandising, photography, and illustration. After earning his Degree at Arizona State University in

Language Studies, Leo went on to get an Associate Degree in Fashion Design from Phoenix College. He honed his design skills as a costume designer at Arizona State University's School of Dance, and is currently working at New York University's Movement Lab as Technical Fashion Director, overseeing the creative execution of the Department's various research projects.

Leo is fluent in Spanish, proficient in Italian and French, and has studied Japanese and Romanian. His diverse knowledge of language is an asset in his ability to reach a global client base.♦
